

National Pollution Prevention Roundtable 2025 Safer Chemistry Challenge Program

Program Resources

Use these technical resources to develop and carry out your work plan for the Safer Chemistry Challenge Program.

- Technical Assistance Program (TAPs) contacts: State technical assistance programs are staffed by scientists and engineers with experience assessing industrial processes for pollution prevention and energy efficiency cost savings opportunities. Find your local TAP at: www.p2rx.org/programs/
- Green Screen for Safer Chemicals: www.cleanproduction.org/Green.Greenscreen.php
- P2Rx Safer Chemical Alternatives Topic Hub: http://www.pprc.org/hubs/index.cfm?page=toc&hub_id=1027
- EPA Chemical Screening Tool for Exposures and Environmental Releases, ChemSTEER: www.epa.gov/opptintr/exposure/pubs/chemsteer.htm
- EPA Design for the Environment (DfE): www.epa.gov/dfe/alternative_assessments.html
- EPA TSCA New Chemicals Program (for new chemical developers) www.epa.gov/opptintr/newchemicals/
- Ecology Safer Alternatives www.ecy.wa.gov/programs/hwtr/ChemAlternatives/index.html
- American Chemical Society Green Chemistry Institute portal.acs.org/portal/acs/corg/content
- Michigan Green Chemistry Clearinghouse migrchemistry.org
- NPPR Quick Chemical Assessment Tool (QCAT)
