

# National Pollution Prevention Roundtable 2025 Safer Chemistry Challenge Program

## Safer Chemistry Practices Template

The National Pollution Prevention Roundtable's (NPPR) 2025 Safer Chemistry Challenge Program (SCCP) seeks to motivate, challenge, and reward safer chemistry practices in businesses to reduce the use of chemicals, especially hazardous and toxic chemicals, through source reduction and pollution prevention measures. This form can be used to document past and current practices to reduce and eliminate toxic chemicals.

### Safer Chemistry Practices:

\_\_\_\_\_ Process Chemicals    \_\_\_\_\_ Maintenance Chemicals    \_\_\_\_\_ Raw Material Chemicals

<b>Title</b>	Provide title of your project
<b>Introduction</b>	Describe your organization and provide a short paragraph introducing the safer chemistry practice. Why is it notable?
<b>Background</b>	Describe the problem addressed. What inspired or drove the work/project? What were the drivers for change?
<b>Objectives</b>	What was your organization trying to achieve? What benefits was the organization trying to realize?
<b>Approach</b>	Describe the project in detail, including what you did and how you did it.
<b>Challenges</b>	List the challenges you encountered.
<b>Successes</b>	Describe the successes and accomplishments.
<b>Conclusion</b>	Who else might benefit from making this kind of change?
<b>Contact</b>	Name, job title, company, telephone, email
